

Online SMS Campaigner

Fast, flexible & feature-rich: An online tool which makes SMS campaigning effortless.

Effective

97% of SMS messages are opened and read within three minutes – better than any other marketing channel. Additionally, SMS has a low opt-out rate, at less than 5%. It's also hugely cost-effective; with a price per message starting as low as 1.5p, and a great way to promote new products, generate leads, & drive more customers to your business.

Easy-to-use

Sending campaigns is easy and can be executed in minutes – just create your message, import your contact list, and press send.

The SMS campaigner has a simple layout, making it very user-friendly and easy to navigate. Built with the customer at the heart of design, clever features like an automated opt-out process, contact importing, and campaign scheduling mean you can relax safe in the knowledge that your campaigns will go out at the right time and in the right way.

Flexible

Whether you'd like to send SMS campaigns to your contacts, or become a reseller and help your clients reach their audience instead, we can help. Tenant and reseller versions of the campaigner are available depending on your business needs.

Feature-rich

Get real-time reports on your campaign via clearly-presented statistical data available to download for your records. Manage your user's accounts and their access privileges from your main admin account.

Save past campaigns and contact lists within the campaigner to make follow-ups even faster.

Benefit from regular updates: We're constantly improving the campaigner, adding new features and enhancing your experience, which we tell you about on the news page of the dashboard.
